Antimicrobial coating

PROPERTIES

- »» reduces the reproduction of dangerous germs between cleaning cycles
- »» lifelong antimicrobial effectiveness (according to ISO 22196 / JIS Z 2801:2010; significant antimicrobial)
- »» physiologically harmless (biocompatibility according to DIN EN ISO 10993-5)
- »» abrasion-resistant (according to DIN EN 60068-2-70)
- »» scratch-resistant (scratch hardness according to DIN EN ISO 1518)
- »» abrasive hardness (cross-cut test according to DIN EN ISO 2409)
- »» chemical-proof to customary detergents and disinfection methods

TECHNOLOGY

- »» dip or spray coating
- »» application process adapted to the geometry and requirements of the substrate

COATING

- »» Coating material REACH and RoHS tested
- »» ISO 9001:2015 certified; process design based on IATF 16949
- »» Environmental management aligned with ISO 14001
